The game's disadvantages problems ruined what Zombie Hunter Sniper is trying to achieve. One of the most frustrating problems is that the AI control of other characters always prevents players. Especially when you bump into a narrow area like the toilet, there is only one entrance. Most times, these characters like to block inputs. And since they do not design the game for you to pass through them, they will block it. In most cases, players must play the game again or persistently try to run So hope that people evacuate the mess all over the place to have a path.
